

Pablo Martinez Climent

Summary

Full-stack developer with more than 5 years of experience building scalable, high-performance web applications. Proficient in a wide range of programming languages and frameworks, including React, Node.js, and .net. Seeking a challenging role that allows me to utilize my skills and experience to contribute to a dynamic team.

Skills

- HTML (5+ years)
- CSS (5+ years)
- GitHub (5+ years)
- TypeScript (4+ years)
- Express.JS (4+ years)
- React (4+ years)
- C# .Net (4+ years)
- Node.JS (4+ years)
- SQL (4+ years)
- MongoDB (4+ years)
- Nest.JS (3+ years)
- Next.JS (2+ years)
- GraphQL (2+ years)
- Golang (1+ years)
- Python (1+ years)

Experience

LANSWEEPER, ALICANTE— *Senior Software engineer*

2023 SEPTEMBER - PRESENT

- Design React components.
- Work with the tech lead to get to the best solutions for the frontend application.
- Design microfrontends based on webpack federation, to provide the best reusability in the code.
- Worked with graphql as api for provide the best information.
- Designing bff for the application.

LANSWEEPER, ALICANTE – *Full-Stack Developer*

2021 NOVEMBER – 2023 SEPTEMBER

- Worked with node.js react, .net, HTML, CSS AND TypeScript for microservices and on premise infrastructure.
- Implement redis for cache and pubsub, for making the process faster and optimize the application performance.
- Working with postgresql, mongodb and clickhouse as databases because of the different needs of the project.
- Worked on the synchronization between services with grpc, kafka, and having microservices over a hundred million messages on a week. • Worked with graphql, and apollo studio as frontend api.

NTT Data, ALICANTE – *Front-End Developer*

2021 JULY – 2021 NOVEMBER

- Worked with technologies such as React, HTML, CSS and JavaScript. • Worked with ui/ux colleagues to implement designs from figma • Mentoring my colleagues with my experience on backend so they could understand how front-end work with backend and my react experience for helping them understand how components work.
- Worked with tight deadlines to ensure clients have what they need on time.

Freelance, Alicante – *Self-Employed*

2019 OCTOBER – 2021 JULY

- Worked with multiple clients to design, develop, and deploy custom web applications using a variety of technologies, including React, Node.js, MongoDB, and .Net.
- Collaborated closely with clients to understand their business requirements and provide tailored solutions to meet their needs. • Completed projects within tight deadlines and budgets, ensuring high levels of customer satisfaction.
- Developed reusable code and templates to improve development efficiency and reduce costs for clients.

VReCards Inc., Remote – *Full-Stack developer*

2019 JUNE – 2019 OCTOBER

- Worked for a startup with three.js, react, php and node.js. • Improving and optimizing services and video generation from 1 frame every 6 seconds on low resolution to 300 fps on full hd.
- Solving bugs and Integrating react to the project.

Tainforma, Alicante – *Internship*

2019 JANUARY – 2019 JUNE

- Worked as project manager with Ionic Angular and mentor my colleagues so they could help me have the project in time.

- Worked with .net and .net core making migrations from .net to .net core. •
- Optimizing sql queries for sql server databases when entity framework wasn't fast enough.

Tainforma, Alicante – *Internship*

2018 JANUARY – 2018 JUNE

- Developed .net projects with C#, HTML, CSS, JavaScript and JQuery.

Education

Computer Science – *Universidad Miguel Hernandez*

2015 – 2019

MongoDB Basics – *MongoDB University*

2018

MongoDB for NodeJS Developers – *MongoDB University*

2018
